

Foundations: Connect Grantees with Guidance

Ensure Maximum Impact by Giving Grant Recipients Access to Achieve services

When you award a grant, you're not just giving away money, you're investing in an organization's mission. And you'd like assurance that the money you invest is used well.

Achieve helps you get that assurance by giving your grant recipients the tools, guidance and consulting services they need to operate at their highest capacity.

How Achieve helps

Achieve was founded by veteran non-profit consultants who often encountered small to medium-sized nonprofit organizations that could not afford the expert resources they need to be most effective. Employing a combination of Web-based and direct services, Achieve puts those resources within reach.

How Achieve helps your grantees

Now you can connect your grantees with Achieve's services through the Achieve Foundation Plan. For one customized fee, you provide your grant recipients with:

- Immediate online access to a library of more than 120 practical templates, how-to documents and real-life examples of proven fundraising and nonprofit management tools that work
- admission to 24 Achieve Webinars on fundraising and nonprofit management (CFRE points available)
- an easy-to-use goal-setting tool to help them stay on track
- a monthly newsletter with tips, stories and strategies
- customized Webinars targeted to your grantee organizations' specific needs and challenges (for a nominal additional fee)
- tailored training programs or speaking engagements (priced on a per-organization basis)
- preferred rates on onsite, online and phone consulting services (priced on a per-organization basis)

In addition, Achieve can provide you with information about the common challenges facing the organizations you fund, and help to shape and support your messages to grantees. Achieve will provide you with annual and semi-annual reports to document those common themes and challenges, as well as the services your grantees are using.

For a lower-cost option, the Achieve Foundation Discount Plan allows your grantees to receive limited Achieve services at discount rate. When you sign up for this plan, your grantees can then contract directly with Achieve at a lower rate for Achieve website access and consulting services.

Learn more about Achieve

For information about how Achieve can help increase your impact by increasing the capacity of the organizations you fund, visit Achieve's Web site (www.achieveguidance.com) or call 317-637-3000.

Developed by philanthropy veterans who understand the resource limitations and operational needs of small to medium-sized organizations, Achieve helps nonprofits better serve their constituents, fulfill their missions and position themselves for long-term sustainability.
